Dear Neethi and Team,

Thank you for the progress presentation. It was noted that the system has developed up to the bidding invitation stage at a satisfactory level. However, there should be a parallel run and further development where necessary to implement the system fully.

I appreciate your team's commitment and the excellent job you have done up to the expected level. Further, I hope the remaining part of the project will be continued by your team or another team later.

Thanks Regards ,

D.Lasith Randika De Zoysa
